

Welcome to Debug Depot!

NEW HIRE ONBOARDING: SERVICES & CAPABILITIES 2025

Why We Are Here

“ We empower small businesses to work smarter,
faster, and more securely.

THE DEBUG DEPOT MISSION

How We Work: The 5-Step Lifecycle

What We Do: Data & Analytics

We transform raw data into a strategic asset. Our focus is on building a robust measurement framework that delivers actionable intelligence for data-driven decision-making.

GA4 Implementation & Configuration

We implement custom, event-driven data layers that go beyond default measurements for business-specific tracking.

Looker Studio Reporting & Dashboards

We build dynamic, interactive dashboards serving as a single source of truth for client KPIs.

Actionable Data Interpretation

We translate data into strategic insights, providing clear recommendations rather than just presenting numbers.

What We Do: Workspace Admin Services

We provide comprehensive, hands-on Google Workspace Administration designed to be a business's complete technical solution.

Efficient Lifecycle Management

We handle the full lifecycle of every user account, including onboarding, password management, and offboarding.

Custom Application Control

We manage access to Google Workspace core services and third-party apps based strictly on user or group permissions.

Robust Security Configuration

We conduct regular audits and configure security settings, including 2SV, CAA, and advanced spam/phishing protection.

What We Do: Website and Local SEO

We ensure our clients' businesses are discoverable in local search results while providing a fast, reliable user experience.

Google Business Profile (GBP) Management

We treat GBP as a critical marketing channel—often the first interaction a local customer has with a brand.

Google Tag Manager (GTM) Implementation

We centralize website tracking to ensure efficient, accurate, and scalable data collection without constant developer intervention.

Actionable Local SEO Advice

We provide ongoing, practical guidance to help our clients climb local search rankings in their specific geographic area.

Welcome Aboard!

We're excited to have you on the team.
